Capital campaign in honor of our 50th Anniversary

Our goal is to raise \$200,000 to cover the cost of the following needs

- Replace and upgrade our 23 year old systems with energy efficient HVAC heating and cooling systems in three areas of the building. Switch two systems from electric to gas heat.
- Purchase a new duplicating machine for in-house printing. For many years our newsletter has been printed by us, saving thousands of dollars. Our current duplicating machine was donated. It has produced almost 4 million copies and getting replacement parts for it is difficult.
 - Replace and install curbing along the front of the building.
 - Replace old fluorescent lighting in half of the building.
 - Replace worn carpeting in the office area.
- Convert the warehouse into useable program space by installing a ceiling, replacing the garage door, which is not used, with glass block, and adding heat and air conditioning.
- Install a divider between the Trexler Room and the Mullin Room to expand seating capacity for events. (This is the build-it-and-they-will-come dream.)
 - Replace old sprinkler heads in sections of the facility.
 - Purchase new chairs and a new copier.

Yes, I would like to support the Capital Campaign

Donations in the amount of \$500 or more will be recognized on our Tree of Life
